

JATINDRA KUMAR SONI

Data Analyst

Pune, India | +91 6261341868 | jatindrasoni1510@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on **7+ month internship experience** and strong technical skills in SQL, Python, Power BI, and Tableau. Skilled in data cleaning, exploratory data analysis (EDA), data modeling, and building **end-to-end ETL pipelines** to support KPI reporting and business decision-making. Completed **10+ end-to-end analytics projects** translating raw, messy data into interactive dashboards and actionable business insights. Effective at gathering reporting requirements, ensuring data quality, and communicating findings to stakeholders.

CORE SKILLS

Programming & Analysis: Python (Pandas), SQL, Microsoft Excel, Data Structures & Algorithms ([LeetCode](#))

SQL: Joins, CTEs, Window Functions, Subqueries, Aggregate Functions, CASE Statements

BI & Data Visualization: Power BI (Power Query, DAX), Tableau, Dashboard Development, KPI Reporting

Databases: MS SQL Server, PostgreSQL, MySQL

Data Analysis: Data Cleaning & Wrangling, ETL Development, EDA, Data Modeling, Star Schema Design, Data Quality & Validation

Business & Product Analysis: Funnel, Cohort, Retention & Churn Analysis, Customer Segmentation, A/B Testing, RFM Analysis, Logistic Regression, Hypothesis Testing

Tools: Git/GitHub, Jupyter Notebook, VS Code, Cursor AI

PROFESSIONAL EXPERIENCE

Business Analytics Intern | Cognifyz IT Solutions Pvt. Ltd.

Remote | Aug 2026 – Present

Project: Investment Analysis Plans | Python, Power BI

- **Analyzed** a consumer investment-behavior dataset in Python (Pandas) using descriptive statistics and EDA on demographic and financial variables.
- **Identified** the most preferred investment avenues, information sources, and average investment duration through frequency analysis of survey responses.
- **Built** an interactive Power BI dashboard for stakeholder reporting and explored correlations between age, investment duration, and expected returns.

Data Analyst Intern | AiBrix

Remote | Mar 2026 – Present

Project: PathWise – Navigation Product Analytics | PostgreSQL, Python, Statistics, Power BI

- **Analyzed** 300K navigation sessions, 900K route options, and 2.2M+ user events to uncover route-selection and navigation behavior.
- **Identified** up to **21.36 percentage-point variation** in route acceptance across traffic-uncertainty segments using SQL and statistics.
- **Evaluated** a 50K-record A/B experiment, observing **+7.56 pp route acceptance** and **+6.77 pp navigation completion** in Treatment.
- **Applied** logistic regression, hypothesis testing, and funnel analysis to identify factors behind route rejection and validate product decisions.

PROJECTS

Independently built **10+ end-to-end projects** in SQL, Python, Excel, and Power BI, with **300+ SQL queries** and **50+ DAX measures** for KPI reporting and business insights.

End-to-End Data Warehouse & ETL Pipeline — SQL Server, T-SQL, Star Schema

- **Designed** a Medallion (Bronze, Silver, Gold) data warehouse in SQL Server, building ETL pipelines to ingest, clean, and load CRM and ERP data.
- **Developed** a star schema with fact and dimension tables, adding data quality checks, deduplication, and business rules using T-SQL and stored procedures.
- **Documented** data architecture, data flow, catalog, and naming conventions, with scripts, datasets, and tests in a version-controlled GitHub repository.

Zomato Food Delivery Analytics Dashboard — Power BI, DAX, Power Query, Excel

- **Built** a 6-page Power BI dashboard (61+ visuals) analyzing 200K+ orders, 56K+ restaurants, and 20K+ customers across executive, customer, and restaurant views.
- **Developed 25+ DAX expressions** (21 measures, 5 calculated columns) for KPI, time-intelligence, revenue, cancellation %, and repeat customer % tracking.

Customer Shopping Behavior Analysis — Python, PostgreSQL, Power BI, Excel

- **Cleaned** 3,900 customer records using Python/Pandas, handling missing values and engineering features; analyzed segments, revenue, and subscriptions in PostgreSQL.
- **Built** an interactive Power BI dashboard on customer demographics, sales, and revenue trends, delivering data-backed loyalty and marketing recommendations.

CERTIFICATIONS

Cognifyz — Business Analytics Internship Certificate | **AiBrix** — Data Analyst Internship Certificate | **HackTheSpace & CodeLoom** — Participation Certificates

EDUCATION

Bachelor of Technology — Computer Science & Business Systems (CSBS), Shri Shankaracharya Technical Campus, Raipur, CG | CGPA: 7.79
